

Daniele Marchetilli

Computer Science Student

👤 Profile

Computer Science Student currently studying at Sapienza University of Rome.

I like to work on coding projects and to learn new code technologies.

I want to get involved in the tech industry.

🎓 Education

IT Technical Institute Diploma, Vincenzo Arangio Ruiz High School, Rome

September 2017 — June 2022

Graduated with top marks, 100/100 in Italian graduation exam.

Took CS classes, part of my High School Diploma.

Computer Science, Sapienza University of Rome, Rome

October 2022 — Present

Deep study in CS.

★ Projects

Bomberman clone, end of semser project for Methodologies of Programming course

Developed a functioning clone of Bomberman with Java. The core of this project was to implement Java Streams and multiple design patterns. Technologies used: Java, Java Swing, JSON API for Java. This project alone was valued 27/30.

Unfinished Restaurant Reservation App

Started to develop an app intended as a reservation services for a restaurant. I used Dart and Flutter and Firestore DB to develop this app.

📌 Courses

Cisco CCNAv7, Cisco

September 2023 — June 2022

Introduction to Cybersecurity, Cisco

March 2023 — May 2023

👛 Employment History

Waiter, Rome

June 2021 — Present

Working to support myself during my studies.

Built experience in public relations, other than team-working and team-communication and learned to work under pressure.

Run restaurant reservations management and restaurant room organization.
